

**PROVIDING
INNOVATIVE
SOLUTIONS**

Premier Trading & Technology Systems DMCC is a Customer-Oriented company providing Equipment & Solutions for Industrial & Commercial Communication Systems, Security & Safety Devices, High & Low Voltage Electrical Equipment and Medical Equipment.

Being the turnkey solutions provider, we can provide the comprehensive support to the customer throughout the long chain of the project implementation; from project drafting to launched equipment support.

Premier Trading & Technology Systems DMCC is associated only with reputed & reliable manufacturers from around the world. Deep knowledge of the local market & technical expertise make us desirable partner not only for the customers but for our suppliers as well.

The combination of technical skills, capabilities and mutual trust gives our clients confidence in implementation of their projects on time and within agreed budget. We coalesce our expertise, project designing skills & engineering together to create competitive and innovative solutions for our esteemed customers.

Our name itself is a guarantee of our commitment of ensuring customer satisfaction.

VISION & MISSION

Premier Trading & Technology Systems DMCC is aimed on establishing long-term relationships with our customers and suppliers to increase the value of all parties involved in the project and finally resulting in mutual benefit for everybody, the parties' companies' growth and their employees' development.

INDUSTRIAL & COMMERCIAL COMMUNICATION SYSTEMS

Premier Trading & Technology Systems DMCC is providing turnkey solutions in the field of industrial & commercial communication systems.

From multiyear experience of handling communication systems projects we gained enough expertise to design the systems that can become not only an effective tool in technological process control but also, and that is the most important, can prevent people's injuries or even save their lives in case of emergency.

We offer equipment for any kind of industrial or transport application, in different protection housings depending on the installation conditions and working on analogue, VoIP or wireless networks.

In our range, we have products which are approved in accordance with the international standards such as ATEX, Cenelec, NFPA and CSA by the key world agencies.

With our comprehensive range of products we can provide the following solutions:

- Public Address and General Alarm
- Intercom in simplex, duplex modes
- Emergency & Hot line telephone systems
- Information Pillars
- Evacuation systems
- Siren systems
- Driller Intercom
- Crane Communication system

SAFETY & SECURITY

Premier Trading & Technology Systems DMCC provides the clients with cutting edge technology by integrating Safety & Security.

We deal with access control systems, HD & thermal cameras from 1 to 29 mega pixels that can protect the customer's premises through low bandwidth on 4G/GPRS/Wi-Fi networks by using the customer's existing infrastructure without any further investment and costs.

Perimeter & boundaries can be secured by intrusion detection system, which gives accurate alarm when intrusion happens and the customer can truly analyze between real & false alarms by means of real time video analytics and thermal cameras that are seamlessly connected to each other. The solutions what we offer are:

- High Definition Video Surveillance Systems
- Video Analytics
- Thermal Imaging CCTV
- Wireless Mobile Surveillance Systems
- Access Control & Biometric Solutions

MEDICAL EQUIPMENT

Premier Trading & Technology Systems DMCC is a supplier of Medical Products in the field of Medical Supply Systems. In particular, we have a long experience in supplying bed head units, head walls and architectural solutions.

We cover with our range the full needs of standalone solution with individual configuration as the classic bed head unit, Modular system to combine different individual needs of the particular areas and architecture design with an industrial concept of manufacturing. Of course, we support all medical gas systems, power and low voltage configurations as well as a complete range for general, reading and night lighting in conventional and LED technology.

Our manufacturer in Germany works under full surveillance and audit of International standards and Certification for Medical Products as well as Modular. We have long experience in supplying bed head units, head walls and architectural solutions. All our equipment is designed & manufactured in Germany.

- Horizontal Bed Head Units for Normal care bedrooms, Intensive Care areas or Dialysis stations
- Vertical Headwall or flatwall concept for Normal care bedrooms
- High-end Duke solutions as a mix of state of the art technology, individual design and workmanship with finest materials
- Complete light fittings concepts for application in health care areas and elderly homes
- Covered Bed Head units, only visible when required

HIGH & LOW VOLTAGE ELECTRICAL EQUIPMENT

Premier Trading & Technology Systems DMCC offers wide range of Oil & Dry Type Power & Distribution Transformers, High & Low Voltage Switchgear, Industrial & Commercial UPS & DC System, Rectifiers, Inverters & battery chargers.

For more than 10 years, we have been supplying the advanced intellectual power supply systems of AC and DC, industrial typed UPS systems, inverters, rectifiers, cabinets and fully integrated solutions in the field of power supply. Besides equipment supply, our specialists are ready to support the customers in site survey for more careful selection of the equipment as well as in the power solutions installation and support throughout their operational life.

Due to significant experience in dealing with power solutions, we have optimized our range that allows us to work out the solutions that can meet any customer requirements. Our range of high & low voltage electrical equipment includes the following:

- Industrial & Commercial DC/AC system
- Industrial & Commercial UPS
- Power & Distribution Transformers & Switchgears
- Galvanized Steel & PVC Conduits and Cable Trunking
- Street Lighting Cut-Outs
